Key Features for PRIMUM Guiding catheter

State of the art Guide catheter for performing coronary angioplasties. Its hydrophilic coating provides greater navigability and reduces the likelihood of vasospasm. It also features extensive compatibility with large profile devices due to its extensive internal lumen.

Characteristics

Hydrophilic coating | Excellent support and pushing | Smooth atraumatic tip for easy insertion | Large internal lumen with a minimal external diameter | 1:1 torque | Braided its entire length

Specifications

Available in 5F, 6F, 7F and 8F | Available in more than 80 curves and designs for radial and femoral approach | Length: 100cm
